In the event of a Tie, the team captains playoff – "closest to the pin" on Hankins 18, from the Craddock 1 pink tee, with each player getting 1 ball.
12. Winning County. If one County signs up more teams, they have more chances to win and will earn a benefit in the scoring because they donated the most money and had the best participation. The 6 lowest average gross team scores from each County will be averaged together – the County with the lowest average gross county score wins the Battle. If a County has fewer than 8 teams, 2 penalty points for every team they are short are added to the County's average score and becomes the final County Team Score. If a County has more than 8 teams, 1 bonus point for each team over 6 teams will be deducted from the County's average team score and be their final County Team Score. In the event of a tie, the teams play closest to the pin on Hankins 18, from Craddock 1 pink tee. 1 ball for each team captain.
